

Project Overview

As of April 27, 2012

Current conditions on Shook Road

Shook Road Phase I, from London-Groveport Road to just south of Rohr Road

Description and Benefits: Project consists of pavement replacement, slight widening, adding ditches to both sides of the road, storm sewer work, and sidewalks. The finished project will provide safer pedestrian accommodations, improved roadway appearance and upgraded drainage facilities.

Schedule:

Construction will commence in 2012.

Costs:

Design and right-of-way acquisition	\$233,000
Construction and inspections (estimated)	\$1.3 million

Contact Information:

Project Manager for design: Moe Tahari, P.E., tel. (614) 645-1650

Designer: BRH Group, Inc.

Construction Contractor: Igel & Co., Inc.
